

## **Scouting Winter Olympics** **(Snow Permitting Only)**

*Who says only Olympians can compete in sporting event? We're going to be hosting our very own Scouting Winter Olympics this December! If your Scout thinks they have what it takes, just wait for the first significant snowfall you see. Once there's snow on the ground, be sure to complete the five activities and tag us on Facebook to receive your own medals!*

- Scouts participating will be recognized by earning the Winter activity segment and will earn a gold medal upon completing all five events.
- To receive the segment, Scouts must complete the following five activities:
  - 100 m snow dash
  - snow long jump
  - sled race/tube race
  - balance beam
  - Snowman relay (timed building of a snowman)
- Verified by tagging Scout doing it on Social Media via pictures.
